Havana, December 7.—Haunted by
fear of the vengeance of New York fear of the vengeance of New York gangsters, whose enmity he incurred when he helped in the conviction of the four gummen and Lieutenant Becker for the murder of Gambler Herman Resenthal, "Bridgie" Webber, the dapper little Forty-second Street card sharp, to-day beat a hasty retreat from Cuba, after one week's stay. He learned, it is said, that his fears no longer were founded on figments of fancy, but on the substantial fact that gunmen stakking him had reached the island.

gunmen stalking him had reached the island.

All the way from his hotel to the beat Webber clung to the arm of his pretty wife casting furtive glances all around him. Carefully he scrutinized the faces of those about him, and his progress was hurried. Once on board the Webberg did not linger on deck, but passed quickly to their stateroom, where Bridgle' disappeared from view. Mrs. Webber stood guard in the companionway until the steamer left. She signed the ships register, gave orders to stewards for baggage, answered all necessary questions, and eyed askance every passenter.

Both Webber and his wife refused to make no comment as to their destination and future plans, but as the Saratosa would stop only at New York, it was certain that they were goins home.

Webber arrived in Havans a week ago and announced that he would remain several weeks "doing" the local sambling houses lie was immediately put under surveillance by the police. To-day, it became known, Webber caught a hurried glimpse of a familiar face, and it was that of an East Side New York gunman. That was enough for "Bridgie." He pulled stakes at once.

THE ANSWER

In the make-up of the Packard "38" carriage are more features directly appealing to the owner and driver than ever before have been embodied in any one motor vehicle

Left Drive

Avoids the necessity of stepping into the street. This result in connection with other far reaching improvements.

Electric Self Starter

Easily and simply operated from a driving position.

Centralized Control

Complete mastery of the car from the driver's seat. A compact ar-rangement at the finger tips operated with the slightest effort. Electric Lighting

Controlling switches at the centralized control board.

Magneto Ignition

A high tension dual ignition system independent of the self-starting battery and motor generator. Insures Packard efficiency at all

Short Turning Radius

The Packard "38" turns in a circle forty-one and one-half feet in diameter.

Six-Inch Depth of Frame Prevents body distortion and cramping of doors. Hydraulic Governor

Enables the novice to drive with the assurance of an expert. Prevents "stalling" the motor in crowded traffic; prevents racing the motor when "declutching"; affords agreeable uniformity of road speeds without requiring skillful use of the accelerator

Six-Cylinders Perfected

Flexible, efficient, silent, giving motion with no sense of exerted

Dry Plate Clutch

Proof against "burning" and cer-tain of engagement without "grabbing."

Forced Feed Oiling

Especially desirable for "sixes."
An auxiliary system feeds oil directly to the cylinder walls and is automatically regulated for different power requirements.

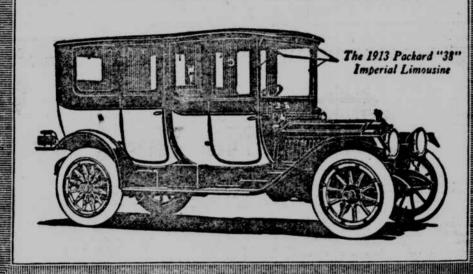

Size of Crank Shaft

The diameter of the crank shaft is 2% inches. Ample size of bearings insures maximum period of service without refitting.

The sum of these essentials is to be found in no other car. This comprehensive solution, in one motor carriage, of all the chief problems of recent years, compels the consideration of the critical patron.

Then, if He Fails to Reconsider, Congressional Action Is Threatened.

[Special to The Times-Dispatch.] Washington, December 7.—"Amazing and unprecedented," was how Representative Garner, of Texas, to-night branded the action of Attorney-General Wickersham in stopping the ar rest of John D. Archbold and other officials of the Standard Oil Company, indicted by a Texas grand jury in the Waters-Pierce litigation.

Garner and Representative Beall, of

Garner and Representative Beall, of Texas, breathed indignation and retribution for Wickersham. Both declared they will give Wickersham "just one more chance to reconsider."

"I never heard of such an amazing and unprecedented affair," said Garner. "A Federal grand jury indicted Archbold upon evidence sufficient to justify issuance of warrants. Yet the Attorney-General, with scant or no consideration of the evidence, says he, not the grand jury, must be satisfied that probable cause exists for the prosecution.

that probable cause exists for the prosecution.

"My colleagues from Texas propose
to give the Attorney-General Just one
more chance to reconsider his action
before provoking a congressional investigation."

Representative Beall, echoing Garner's sentiments, said in fairness to
United States District Attorney Atwell, of Texas, as well as Wickersham,
that congressional action should be
stayed until Wickersham receives the
formal opinion of Atwell and Department of Justice officials and makes
known his final decision.

"If the Department of Justice attempts to override the authority of
the Texas Federal courts, however,"
said Garner, "the country is entitled to
know all the facts and the reasons in
detail for such unprecedented action."
